60	On 11 August, the Waldlager north of Born was occupied. Tanks, vehicles, and troops in tents were seen in bivouse.
00	On 11 August, Waldlager II south of Huetten was occupied by approximately 4,000 soldiers. Intensive activity was observed in the camp. The vehicles and tanks previously parked at the northern border of the camp had presumably been moved to prepared parking lots at the southwest border of the camp. Many new lean-to sheds had been built there. The place under the lean-to sheds was occupied to capacity by tanks and SP guns. Heavy vehicular traffic was observed on the Born-Haldensleben road.
